

SHAZAM BOLT\$ is a fraud transaction alerting, balance monitoring, ATM locator and person-to-person (P2P) money transfer application for your smartphone!

To Enroll

Download SHAZAM BOLT\$ for FREE from the Apple App Store or Google Play - or - log in to bolts.shazam.net and enter your full card number to determine if your card is eligible.

Select **New Mobile Card User** and create your username, password and user profile. Complete each enrollment process screen as required.

Note: you will receive a phone call from Shazam Bolts (800.524.0408) to the phone number you entered during the enrollment process to enter your 4-digit Debit Card PIN.

Note: Passwords must contain at least one capital letter, one lowercase letter, one number, one special character (!, @, #, \$, %, &, or *) and be 5 to 32 characters in length. Cardholders are required to change their password every 90 days.

Once you are logged in - it is really easy to add an additional card, just tap the **Add Card Button** and follow the same prompts for registration.

Activate Alerts

Once logged in, you'll see your balances and the **Alerts & Settings**. Select the **Card Alert Settings Button**.

You can activate alerts for the following settings...

- Transaction amounts (set amount threshold)
- Card-Not-Present transactions
- Internet and phone transactions
- International and mail order transactions
- Enter a secondary email address to be used for transaction-level alerts

Essentially, any high-risk or suspicious transaction that occurs on your debit card can be monitored and managed. You can even turn your debit card "on" or "off" (perfect if you misplace your debit card or are traveling).

Instant Transaction Control

The **Transaction Control** feature gives you more control over your accounts. You'll be able to pause your card, without affecting previous transactions, if your card is stolen or goes missing. With the quick tap of a button, this feature allows you to block or unblock your own card.

This fast and simple security feature increases safety and helps prevent fraud. It not only gives you peace of mind, it saves you from the hassle of updating any automatic payment information.

Change User Settings

Click the **User Settings Button** to change your password or update your user profile. If you forget your user name or password, you can go to the login page and click on either the "Forgot Username" or "Forgot Password" button. This will generate an email to the email address setup within the App to either provide you with your username or allow you to create a new password.

Lightning Fast Money Transfers

The Person-to-Person (P2P) feature allows you to send money to other SHAZAM BOLT\$ users; it's safe, convenient and instantaneous!

From the main login screen, select **Card Actions** and then select **Send Money**. Then follow a few more prompts and finally click **Submit** on the **Send Money Approval** screen.

Both parties will receive an email confirmation of the P2P payment transaction.

Convenient ATM Locator

Locating an ATM has never been easier because of integrated GPS technology into the SHAZAM BOLT\$ app. No matter where you travel, you'll be able to locate the nearest ATM, confirm if it's a surcharge-free Shazam Privileged Status® terminal and get directions.

Just select the **ATM Locator** from the main log in screen, tap search, tap the location choice or select **List Icon** and tap a location for directions.
